Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant has presented new claims significantly different from those previously presented, therefore the previous rejections are not directly applicable.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 93-119 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. The omitted structural cooperative relationships are the relationship between the filter and the tissue collection chamber and the cell collection chamber. Applicant's processing unit requires a tissue collection chamber and a filter and a cell collection chamber but does not make it clear how these parts of the apparatus are oriented for the prescribed purpose of processing stem cells.

Further, there is no claimed element within the apparatus that will facilitate the concentration and/or separation of the stem cells from the adipose tissue as is the

specification-discussed invention. The claims also are indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention because the apparatus has means for separating adipose tissue from lipid, blood and saline but also refers to the collected tissue as "adipose tissue" and because the apparatus requires a chamber for concentration of adipose-derived stem cells but does not detail how the apparatus facilitates the transition between adipose tissue (first or second type) and adipose-derived stem cells. The claims are incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
